### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul sharp on May 13, 2005.

The application has been amended as follows:

In line 2 of paragraph [0001] of the specification, *after* "10/011,319, filed December 11, 2001," *inserted* --now United States Patent No. 6,849,175--.

On line 1 of **claim 13**, *inserted* --a portion of-- between "wherein" and "said dehydrated crude".

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest recirculating the dehydrated crude oil for contact immediately below the vaporizing surface for maintaining a substantially uniform temperature of the vaporizing surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
